

<b>CA Torino</b>		Shutdown mode current is less than 1uA
Operating current: 20–28mA		Operating frequency: 433.92 MHz
Mains input voltage range: 2.0V–3.6V		Size: 16x12x1mm
Transfer rate: up to 20KHz		Modulation mode: OOK (Amplitude Modulation)
Output Power: 11dBm		Launch distance: 20–200 meters
Temperature range: –45C–85C		External antenna: 25cm ordinary multi-core or single-core line
Sheet: /		
File: WL102–341.kicad_sch		
<b>Title:</b> WL102–341 Module Schematic from the internet
